## Modular Concrete Mixing and Batching Plant up to 120 m<sup>3</sup>/h.

# CMH-AD120

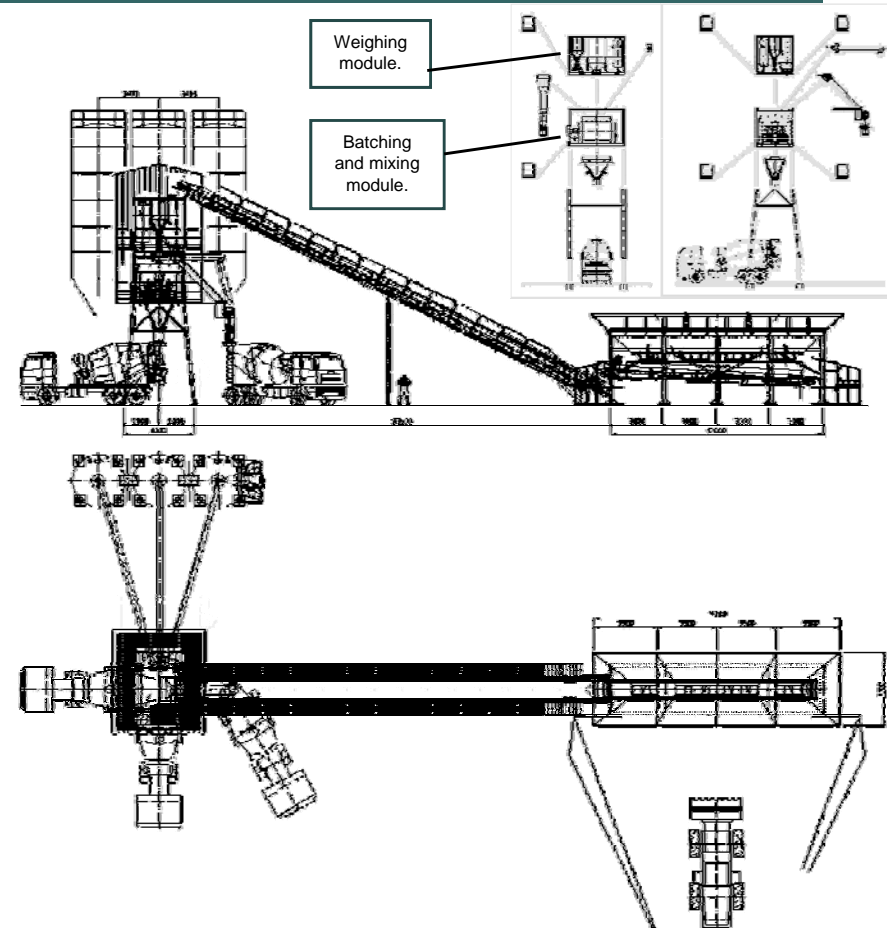

### Technical data.

- Advantages for the customer
- Light, inexpensive and versatile.
- Modular and 100% transportable.
- High production, 3 m<sup>3</sup> cycles of mixed concrete.
- Optional cement silos, batching line and buffer hopper according to needs.
- Advantages for Leblan.
- Standardization of structures, modules, belt conveyors and spare parts.
- Shorter manufacturing and assembly times.
- Simpler design and high configuration versatility.

### General description.

- Folding structure belt conveyor.
- Aggregate module: 4, 5 or 6 compartments, single or double row and with requested capacity.
- Batching, mixing and weighing modules.
- Respective cement silos and worms crews.
