

QUALITY POLICY, ENVIRONMENT AND SAFETY AND HEALTH IN THE WORK

The Manager of **INDUSTRIAS LEBLAN** in its constant attitude of satisfying its customers is aware of the need to continuously improve the efficiency of the Management System, its processes and products, adapt the company to the needs and conditions of the market, improve the social climate of the company and the motivation of all its staff.

For this reason we have established this Quality, Environment and Safety and Health Policy at work based on the inescapable commitment to meet the legal requirements, established by current legislation, and the technical requirements established by the needs of our customers. Likewise, as the improvement continues in all our activities (**Design, manufacture and assembly of facilities for arid, concrete and solid waste treatment**).

This Policy provides the framework for establishing and reviewing the Quality, Environment and Occupational Safety and Health Goals. To do this, all **LEBLAN** persons and collaborators undertake the following commitments:

- To offer technologically advanced products and services, meeting the needs of customers.
- **LEBLAN** is committed to achieving an adequate level of safety at work for its workers. To this end, continued attention will be maintained in identifying and eliminating hazards that may cause injury and illness to employees, loss of property or processes.
- To provide our clients with our experience and technology by collaborating with them in defining their needs.
- Constantly improve in design, procurement and manufacturing by applying the latest technology incorporated in **LEBLAN Industries**. Prevent and reduce possible pollution and negative impacts on the environment, arising from our activities.
- Preventive responsibilities will be assigned directly on the competencies assigned to each one in the development of his or her work, so that the integration of prevention is achieved in all the activities of the company and at all levels Hierarchical
- Improve the facilities and means of production necessary for the development of our activities, increasing productivity and reducing costs as far as possible
- The application of control measures to eliminate hazards and reduce risk, proportional to the value of the assets we own (people, media, facilities, communications, systems, etc.) according to the risk analysis carried out and the levels of it accepted by the organization.
- Train and inform all staff about occupational risks.
- To participate in this Policy to each and every worker who provides their service in the entity, demonstrating full awareness and collaboration within the structure of **LEBLAN** in the field of safety and health.

This policy will be reviewed annually and communicated to all persons working for or on behalf of the organization, being available to anyone who requires it, as well as to the general public

The Directorate of **INDUSTRIAS LEBLAN declares** mandatory the precepts of the Management System for all the company's personnel in the activities that apply to it, assumes the commitment to disseminate this Policy at all levels of the company and provides the necessary means for this Policy to be understood by all, keeping it present day to day in the development of our activity.

In La Puebla de Alfindén, february 20 th, 2019
Luis Alonso de Pedro
Manager
